This shoot is all about soft, entertaining targets. We are telling you up front that while not a “trap” target shoot... there will be lots of people from many classes in the 90's! As always we will make you work a bit, and maybe scratch your head.

This is a GREAT event to bring out a NEW SHOOTER!

This is EVENT #4 of 5 for our YETI All-Around Series. For more information on the series as well as our other clay events go to

Time to work on your Mental Game as nearly EVERYONE is capable of breaking into the 90's at this shoot.
